

BANDIT MACHINE WORKS

Sportsman Superclutch

Now available for all HD Big Twins from 1990 to 2019. the new Sportsman Superclutch is an economical, easy to install high performance clutch upgrade with all of the quality, design, performance and service you've come to expect from Bandit Machine Works.

Features -

- Increased friction surface area (39601 = 217% of stock, 39801 = 275% of stock, 039831 280% of stock) that's more than *any other* high performance HD clutch!
- Greatly increased torque and horsepower capacity - get it *all* to the rear wheel!
- Lighter lever pull - greatly improved 'feel' and ease of operation
- Coil springs allow infinite pressure adjustment to tailor the clutch to your bike - no more choosing between "too much" or "not enough" - get it **just right**
- Reduced maintenance - 'set it and forget it'
- Bolt in installation in stock HD clutch shell
- Extended inner hub length for 90-06 models supports clutch on the mainshaft and prevents premature spline wear under heavy loads

PN 039831 – 2007-up cable operated and 2006 Dyna
PN 039831-BL same as above with single stage lockup
