

BANDIT MACHINE WORKS

The **BANDIT BAGGER DRIVE**

Bolt on to 1990 – 2006
Touring models,
integrated shifter mount
uses all stock or custom
shifter components, no
modifications to
floorboards needed.

2-1/2" belt, billet pulleys,
modular motorplate, and
the famous **BANDIT**
superclutch add up to a
high quality addition to
that custom or hotrod
bagger. Several belt

guards and pulley covers available, also available without shift linkage mount for custom forward control applications. Light lever pull, high horsepower capacity, long life clutch reduces maintenance.

Racer Net – \$2895.00
